What Happens if Weather Affects My Installation Date?

6. Delivery & Installation · https://www.shed-solutions.com/docs/delivery-installation/what-happens-if-weather-affects-my-installation-date.html

We Monitor Weather Closely

If conditions make it unsafe or impractical to proceed -- such as heavy rain, extreme cold, or high winds -- we'll contact you to reschedule. The safety of our crew and the quality of your installation are our top priorities.

Rescheduling

We understand weather delays are frustrating. We'll work to reschedule your installation as quickly as possible and will keep you informed throughout. During peak season, a weather delay may push your date back by one to two weeks depending on availability.
